

**SUMANTAI WASNIK INSTITUTE OF NURSING, NAGPUR**  
**PART -III ACADEMIC DETAILS**  
**S. NO. 12**

**Provision To Maintain Academic Climate in College:**

**I) Factors that can negatively impact the academic climate.**

- 1) *High stress levels:* -Excessive workload, demanding clinical schedules, and competitive atmosphere.
- 2) *Lack of faculty support.:-* Unresponsive professors, limited access to guidance, and inconsistent feedback.
- 3) *Poorly designed curriculum.:-* Outdated content, inadequate clinical exposure and lack of relevance to current practice.
- 4) *Discriminatory or hostile environment:* - Unwelcoming attitudes towards diverse student populations.

**II) Importance of a positive academic climate.**

- 1) *Improved student learning outcomes.:-* Higher retention rates, better academic performance, and increased critical thinking skills.
- 2) *Enhanced professional development.* Greater confidence in clinical practice and preparedness for the nursing role. Increased job satisfaction. Positive experiences during nursing school can lead to higher career satisfaction.

In order to provide good academics climate in college, measure is taken to minimize the factor, that have a negative impact on it. Provision is made to promote the positive factors and measure that motivate good academic climate.
